Secured

- Dual door and double locking for added security and also to comply with banking requirements for cheques transaction.
- Built in buzzer to alert officer.
- Anti pull back feature to prevent unauthorized transactions.
- Password controlled access for report printing.

Intelligent Operations

- Auto receipt retrieval if not collected after 10 seconds.
- Reset sequence number automatically at midnight.
- Simple push button switch to open both shuttles during operational error.
- Password controlled access for report printing.
- Remote Status Indicator to buzz and alert officer in attendance who is positioned away from the kiosk (Optional).

Networking CheqDrop (Optional)

Through a PC interface, up to 16 units of Fascek® 1200 can be linked. With this, all journals can be printed and data can be stored centrally.

FasCek® 1200

integrated cheque collection solution

How often do your customers have to queue up at the bank to perform simple task like depositing a cheque? FasCek® 1200 is a cost effective standalone self service kiosk that can be placed within and outside the bank premises to collect cheques from your valued customers. Your customers can now perform this task anytime and anywhere. This is another milestone to moving the bank towards becoming more customer centric. With CheqDrop, your customers simply drop the cheque into the collection slot and collect the acknowledgement receipt. All this completed within a couple of seconds.

Benefits

Reduce Queue Time

Dedicated cost-effective kiosk for cheque collection.

Improves Customer Service

Provides convenience banking services to valued customers — anytime & anywhere banking. Can be placed in non-bank locations

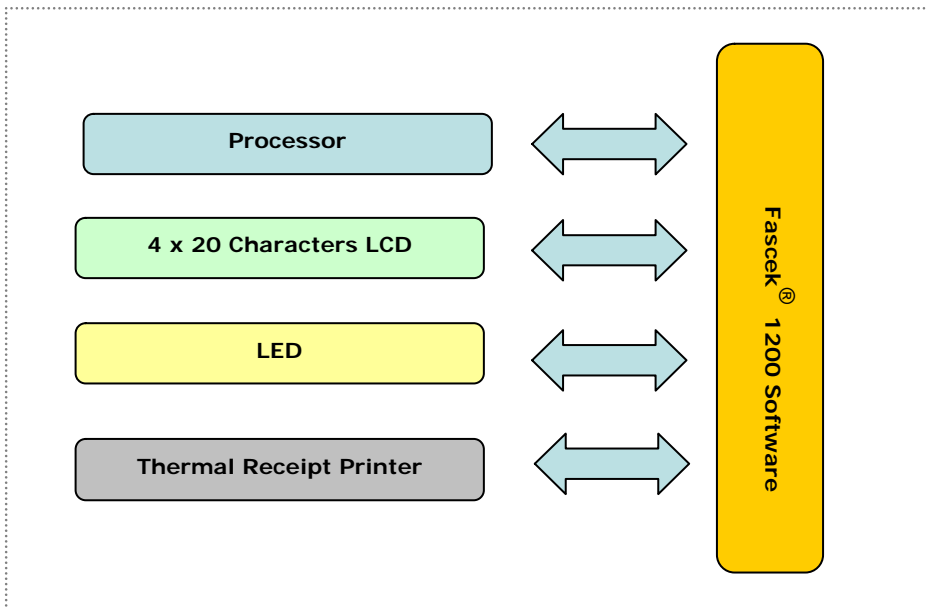

Cost Savings

The bank can now do more with less.
